

How Do You Approach a Word Problem

CIRCLE/CHECK THE SELECTION THAT FITS YOU THE BEST

1. When you realize that you're facing a math word problem, what do you do?
 - A. I move to the next question
 - B. I read the problem and realize I don't want to solve it
 - C. I read the question, figure out what the problem is asking, determine what is given, and what I need to find/calculate.
 - D. I feel a headache starting
 - E. I don't know where to start.
 - F. I don't understand what I'm reading. I try to
